

Benefit from exclusive savings with Canada Post

With unmatched reach to all 17.4 million addresses in Canada, Canada Post makes it easy for you to give your customers a seamless, secure and sustainable delivery experience. Take advantage of their suite of solutions at an exclusive member-only price.

Give your shoppers what they want with an experience that meets their expectations and enables your business

Secure access to every Canadian address

With a network that reaches every residential and business address in Canada, including rural, remote and northern communities, your business can access every Canadian by partnering with Canada Post. 70% of the delivery points within their network are secure – including community mailboxes, parcel lockers, PO boxes as well as exclusive access to apartment and condo lobby lock boxes – delivering confidence to your customers like no one else.

Meet customers' expectations with the power of choice

Online shoppers want more choice, more convenience and more visibility. With solutions such as FlexDelivery™, Package Redirection, automatic tracking and photo confirmation, there's no shortage of ways for shoppers to personalize their deliveries – enabling your business to deliver the experience they're demanding.

Simple, seamless technological integration

Access free application programming interfaces (APIs), plugins and technical documentation to easily integrate Canada Post ecommerce solutions into your existing platform, website or custom application. Take advantage of a suite of tracking APIs to help manage customer expectations around delivery, AddressComplete™ to verify customer information in real time, shipping label APIs and more to enhance your ecommerce experience.

Offering sustainable shipping solutions

Canadians want to protect the environment for future generations. Canada Post is committed to reducing its environmental footprint to deliver a sustainable future. Through carbon-neutral shipping and initiatives focused on waste reduction, clean energy and fleet electrification, they aim to reduce greenhouse gas emissions from shipping and delivery – supporting businesses on their journey in meeting their climate-related goals.

Simple and convenient returns

Take advantage of solutions to help you keep returns simple for your business and seamless for your customers. With label in the box, label on demand and box-free label-free returns solutions, you have the flexibility to choose the solution that meets your needs all while keeping the process simple for your customers. Creating a returns policy that works for your business and ultimately drives conversion has never been easier!
